“GamePlan Financial really helped me transition from being a captive agent to independent. They started by helping me get setup to do seminars. Then they helped me partner with one of their top agents to work with her radio program so I could receive some exposure to radio. Then they helped me develop my own radio program.

I know it sounds cliché but when you call your Sales Coach, or GamePlan's in-house ad agency, GP Creative, they will help you create a REAL game plan. A lot of advisors won't be able to take their business to where they want it to be because they don't have a plan. Every time I've needed a course of action, if I call GamePlan... I get it. They always know what's working and what's not. That's what I love about our relationship. They know what they are doing to help other agents drive leads and they share that information with me.

I get calls from other marketing organizations every day. They all say that they can do better service for me, but the reality is that everything that they tell me they can do... I already get from GamePlan. I know that I'm not just a number with GamePlan. They always provide me with exceptional service. I know there is no doubt in my mind that I wouldn't be where I am today without GamePlan. They've impacted me both professionally and personally. They've even made a difference with my family. I will never leave GamePlan.”
